👤 PROFILE

From college studying Applied IT through to University which I learned Actionsript, PHP/MySQL, HTML/CSS and Python. During employment at Allfiled, I learned Oracle IDE, Agile/Sprint working practices. I learnt aspects of Ruby on Rails and Javascript.

I have a strong drive to learn technical code, in my spare time I dedicate 2 hours minimum, per day into learning programming. Learning from books, Github repos, forums and official documentation.

I love the objective of developing and improving programs to provide IT solutions.

📁 EMPLOYMENT HISTORY

Junior Web Developer at Allied, Sheffield

January 2013 — January 2015

- Worked predominantly on Martin Lewis's Cheap Energy Club with languages including HTML5, CSS3, Ruby On Rails, PHP, MySQL and Python.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.
- Remained knowledgeable in standards and technologies in website development.
- Collaborated with Senior Developers, Testers, Project Managers and the CTO in an agile/sprint development structure.
- Built email templates using HTML5, CSS3 and Bootstrap.
- Utilised Eclipse IDE and Redmine project management software.
- Developed automated testing functionality using Ruby-on-Rails.
- Created framework designs using the Adobe Suite.

Entry Clearance Manager/Technical specialist at UK Visas and Immigration, Sheffield
